COURTS.—U. S. DISTRICT COURT.—Judge Jackson.—This Court met at the usual hour yesterday morning.

Messrs. J. M. Mason, J. D. Butts and Ben. S. Allison were admitted to practice law in this court.

The argument on an injunction restraining J. M. Mason from using a ferry at Harper's Ferry occupied the entire day. General Goff opened for the Government, and was followed by Messrs. Daniel Lucas and J. M. Mason for the defendant. The right to the ferry, it is claimed, was originally purchased from Virginia by the United States and used until some time in the year 1842. Under certain stipulations with parties who desired to build a bridge, the ferry was discontinued for twenty years, and the same now made it that this use forfeited the government title, although the Government subsequently revived the ferry and used it for several years.

Adjourned until this morning.

Mendel, Prof. G. Gutterberg.

TEMPERATURE.—The meeting at Parker's Hall last night was well attended. Addresses were delivered by Romeo H. Freer, Esq., of Kanawha county, Mr. G. W. Atkinson and others. The meeting was held on Friday evening, and on Monday evening a business meeting will be held.

There will be a temperance meeting held to-night at the Fourth Presbyterian Church in North Wheeling. The meeting will be addressed by Mr. R. H. Freer, of Charleston, W. Va., and will be a rich treat for all who go to hear him. Let the temperance people turn out one and all.

STRIKE EVER COMETH FROM THE BOTTLE.—The Geo. Washington Cadets, a company of very minor youths, who with their little guns (not hatchets) have for some time been cultivating the art military in Knaps' back yard, concluded last evening to indulge in the temperance strike, and were known among the boys as liquor ice water. Notwithstanding the extreme mildness of the liquor-ice, so true is it that trouble ever runs out of the bottle, a battle (not a sham) occurred over it among the little boys, and the company busted. Sir transit glories Monday morning.

Callahan, sentenced to two years for burglary; William L. Marks, for same offense and same time; and George H. Ryan, for passing counterfeit money, sentenced for two years.

MILITARY NOTES.—Adjutant General Wood yesterday received from Philadelphia \$5,000 rounds of blank cartridges, for the use of the military on the 30th. The cartridges cost \$17.50 per thousand, which will come out of the State appropriation.

Maj. Sam. B. McCulloch has been appointed Adjutant by Gen. Duval, the Post Commandant, during the sham battle.

The indications at present are that there will not be quite so many troops here on the 30th as many had hoped for. The University Cadets will be here, with four pieces of artillery. A portion of the Camden Guards, of Mountsboro, are also expected. The Davis Guards, of Fairmont, will not come, owing to their inability to obtain satisfactory rates with the B. & O. Railroad Company. The Wilson Blues, of Burton, have no arms, but some of them may come, and in case they do they will be provided with arms here and assigned to guard duty.

THE GRAND STAND.—Says "The Standard" that the Grand Stand on the Fair Grounds is not safe for the seating of a large crowd, and as it may be expected to occupy it to-morrow, we yesterday made a personal examination of the structure, and came away satisfied that it will be well for the committee, if there be such, having charge of the arrangements, to give some attention to strengthening the structure.

We found quite a number of the intermediate supports gone entirely, and others contributing nothing to the support of the floor timbers, being loose at the bottom, the wooden blocks upon which they rested having slipped.

Some of the principal posts, too, are quite rotten at the ground. The ends of some of the truss timbers which support the flooring joists are rotted off at the front or west side of the building. Going up to the audience part of the stand, we are asked to look closely to see that time has been getting in its work on the old building. The sinking of timbers is everywhere palpable; the floors are considerably broken and generally weak in appearance. The stairs leading up to the amphitheatre on the east side are rotten, and will not hold the weight of the structure.
